

# VERSA-LOK STANDARD

## RETAINING WALL SYSTEM

## THE DO-IT-ALL SOLID SEGMENTAL RETAINING WALL UNIT.

The VERSA-LOK® Standard retaining wall system is the industry standard for beauty, versatility and ease of installation. VERSA-LOK Standard is the original solid, top-pinning retaining wall system and a universal favorite of engineers, landscape architects, designers, contractors and homeowners. Made of high-strength, low-absorption concrete, the Standard unit resists damage before, during and after construction in all climates, and for shoreline applications.

A solid construction and hole-to-slot pinning system provide an array of design options and hardcore durability. Incorporate curves, corners, columns, stairs and freestanding walls without the need for specialty pieces. There are no hollow cores to fill, no concrete footings are required, and units are installed without mortar. The pinning system permits easy variable-bond construction while keeping vertical joints tight. The Standard unit is available in traditional split-face as well as a Weathered texture option at selected dealers, and VERSA-LOK caps provide a beautiful finish. Depending on individual sites, soil and loading conditions (including terraces), VERSA-LOK Standard can be used for gravity walls up to four feet tall. With proper soil reinforcement, Standard walls can be constructed up to 50 feet and higher.

### SPECIFICATIONS

|                             |                  |
|-----------------------------|------------------|
| Height .....                | 6"               |
| Width (face) .....          | 16"              |
| Depth .....                 | 12"              |
| Face area.....              | 2/3 sq. ft.      |
| Weight .....                | 82 lbs.          |
| Minimum outside radius..... | 8'               |
| Pins .....                  | 2 per unit       |
| Setback.....                | 3/4" (7 degrees) |

### UNREINFORCED\*

### SOIL-REINFORCED

**\*Please note:** The maximum height for an unreinforced Standard retaining wall is 4 feet. Taller walls up to 50 feet+ require soil reinforcement and engineering assistance. Individual site, soil and loading conditions (including terraces) may limit unreinforced wall heights to less than 4 feet. Check your local building code requirements. Please contact your supplier or VERSA-LOK representative for assistance.

## SOLUTIONS WE SUPPLY

### GEOSYNTHETICS

Filter Fabrics

Stabilization Fabrics

Geogrids

- Road Grids
- Wall Grids
- Slope Stabilization

Specialty Fabrics

Composite Geomembranes

- GCLs, PVC, HDPE, LLDPE, EPDM, Granular Bentonite

### SEDIMENT CONTROL

Inlet Protection

- Grated Inlet, Curb Inlet, Area Inlet Protection

Ditch Checks

- Triangle Silt Dike
- GeoRidge

Perimeter Protection

- High and Low-Porosity Silt Fence, Straw Wattles, Silt Socks
- Safety Fence

Flocculants & Water Treatment

- Polymer-Based & Natural Flocculants

Sediment Basin Skimmers

Dewatering Bags

Trackout Control

- FODS
- Rumble Grates

Turbidity Curtains

### EROSION CONTROL

Basic Hydraulically Applied Mulches

- Wood
- Paper
- Blends
- Straw

High-Performance Hydraulically

Applied Products

- BFM
- FGM
- Additives & Tackifiers

Temporary Erosion Control Blankets

- Coir & Jute Mat/Nettings
- Short-Term ECBs
- Extended-Term ECBs

Permanent Erosion Control Blankets

- Turf Reinforcement Mats
- HP-TRMs
- Anchor Reinforced Vegetation System

Structural BMPs

- Transition Mats
- Geoweb Cellular Confinement
- Composite Vegetated Armor System
- Flex MSE Vegetated Wall System
- Articulated Concrete Block
- Gabions
- Grout-Filled Geotextile Mats

Vegetation Establishment

- Native Seed & Turf Seed
- Fertilizers
- Organic Soil Additives
- Stratavault Soil Cells

### STORMWATER MANAGEMENT

Water Quality

- Inlet Filter Boxes
- Pre-Treatment Chamber
- Nutrient Separating Baffle Boxes
- High-Flow Biofiltration Media
- Hydrodynamic Separators
- Stratavault

Water Quantity

- Modular Underground Storage Systems
- Chamber Detention Systems

Drainage

- HDPE Swale Liner
- Pipe & Fittings
- Drainage Composites
- Strip Drain

Inlet Structures

- PVC
- Drain Basins, In-Line Drains
- Landscape

Permeable Pavers

- Permeable Articulating Concrete Block
- Grass Pavers
- Gravel Pavers
- Concrete Pavers

### SPECIALTY

Natural & Synthetic Coir Fiber Logs

Vegetated Reinforced Soil Slopes

Soil Anchors

Root Barrier System

AquaBlok

Muscle Wall

We are full line distributors of construction materials for all project types. Contact us for assistance with a project. From specification and development to installation and completion, we're here to help with all of your site solution needs.

**GEOSYNTHETICS | EROSION CONTROL | STORMWATER MANAGEMENT  
SEDIMENT CONTROL | REVEGETATION & SOIL AMENDMENTS**
