

STORMBASIN CARTRIDGE BASED FILTER

CERTIFIED FULL TRASH CAPTURE DEVICE BY CA STATE WATER BOARD

With over **25 years of experience**, Fabco Industries continues to offer and expand upon their comprehensive line of versatile solutions to include an array of **CA SWRCB approved devices**, including the StormBasin cartridge based inlet filter.

The Fabco Industries StormBasin is a **cartridge based inlet filtration device** designed to **remove and/or neutralize pollutants commonly found in stormwater**. It's a permanent device that can be configured for **grate or curb inlets and manholes** and retrofitted to **accommodate various inlet sizes**, available in the **BMP series** and **PLUS series**, with the **PLUS** featuring a protected bypass.

The cartridge filters are **easy to remove and replace**, and Fabco produces several types of cartridges to handle an array of pollutants – including but not limited to: **sediment, trash & debris, nutrients, fecal bacteria, hydrocarbons (oils & grease), and heavy metals**.

Recommended to replace every 12 months.
