

STORMSACK FILTER

FOR GRATE AND CURB INLETS OR MANHOLES
CERTIFIED FULL TRASH CAPTURE DEVICE BY CA STATE WATER BOARD

With over **25 years of experience**, Fabco Industries continues to offer and expand upon their comprehensive line of versatile solutions to include an array of **CA SWRCB approved devices**, including the StormSack BMP and PLUS.

The StormSack Filter is a **robust product** designed with **fewer components** and the ease of installation and maintenance in mind.

- Simply rest the **durable 13 gauge stainless steel frame** on the grate lip and easily adjust the **expandable and customizable flanges** in the field to accommodate catch basin irregularities.
- Get more of what you want with **more customizable options** than the alternatives. The **flexible lightweight polypropylene basket** comes in **varying depths** and has been **designed to maximize the space of the catch basin opening** thus **reducing maintenance intervals**.
- **Stainless steel basket** option available with **Fabco's StormBasket model** which can also be configured for most any catch basin drain configuration.
- **Alternate flange configurations** available as well as **custom flow rates** to meet customer specifications and for reduced maintenance.
- **Quickly maintain by hand or vacuum truck.**
- **ALL filter components** are backed by a **10 year warranty** which greatly exceeds the industry standard.
- Contact your local Ferguson representative for help with proper product selection and design options.
