REINFORCED POLY

Grip-Rite string reinforced poly features woven reinforced bands with perforated eyelets that enable easy and secure fastening to scaffolding. Used in combination with Grip-Rite anchor ties, our enclosure system forms a reliable barrier between the jobsite and the elements.

Available in four styles to suit all of your jobsite protection needs:

- *String reinforced poly — with seam and edge reinforcements (clear)*

Produced using a 2.5 x 2.5 tear resistant Leno scrim
with double strings in machine direction

Coating is ultra-clear film quality virgin HDPE for maximum elasticity and light emission
Total fabric weight is 90 g/m²

Woven reinforcing bands with perforations every 10.0 cm for easy and secure fastening to scaffolding*

The most clear, light emitting, and durable string poly on the market today

- *String reinforced poly — flame retardant with the same reinforcing bands and eyelets as our non-flame retardant (milky white)*
- *Woven reinforced poly (clear)*

Tough 8 x 8 scrim woven poly, coated with clear HDPE on both sides, 65 g/m² weight

- *Woven reinforced poly – flame retardant (milky white)*

Grip-Rite reinforced poly is folded and rolled on a paper core and packed in printed carton for easy shipping!
