

FALCON ANCHORS™

Solar Installation with Falcon Anchors™

Falcon Anchors feature improved quality, performance, and system installation, resulting in advanced anchored products that provide remarkable pullout resistance. Follow these simple steps for installing Falcon Anchors.

Step 1: Insert the drive rod into the Falcon anchor head. Drive anchor through Nuance Energy foot plate to the design depth; maintain 10 degree or less angle from vertical. Ensure cable does not rub against foot plate as the anchor is installed. Anchors can be driven using a sledge hammer, gas powered driver, or hammer drill.

Step 2: Remove Drive rod. In soft soils, the drive rod can be removed by hand. In tougher soils the use of a Nuance Energy PowerJack may be required.

Step 3: Load-lock the anchor once the rod is removed. Place Nuance Energy PowerJack directly over the foot plate. Hook the PowerJack through the cable loop. With the cable at no greater than 10 degrees from vertical, and not rubbing against the foot plate, set the anchor using the PowerJack. The Power-Jack will travel up and down until resistance is made.

Step 4: Slide the top termination down the cable until it fits snugly against the foot plate.

Step 5: Using a 1/8" diameter tool with a minimum depth of 1 inch, fully engage the locking mechanism of the top termination with a moderate tap into the setting hole. Test the grip by pulling up on the foot plate. No movement should be felt.

SOLUTIONS WE SUPPLY

GEOSYNTHETICS

Filter Fabrics

Stabilization Fabrics

Geogrids

- Road Grids
- Wall Grids
- Slope Stabilization

Specialty Fabrics

Composite Geomembranes

- GCLs, PVC, HDPE, LLDPE, EPDM, Granular Bentonite

SEDIMENT CONTROL

Inlet Protection

- Grated Inlet, Curb Inlet, Area Inlet Protection

Ditch Checks

- Triangle Silt Dike
- GeoRidge

Perimeter Protection

- High and Low-Porosity Silt Fence, Straw Wattles, Silt Socks
- Safety Fence

Flocculants & Water Treatment

- Polymer-Based & Natural Flocculants

Sediment Basin Skimmers

Dewatering Bags

Trackout Control

- FODS
- Rumble Grates

Turbidity Curtains

EROSION CONTROL

Basic Hydraulically Applied Mulches

- Wood
- Paper
- Blends
- Straw

High-Performance Hydraulically

Applied Products

- BFM
- FGM
- Additives & Tackifiers

Temporary Erosion Control Blankets

- Coir & Jute Mat/Nettings
- Short-Term ECBs
- Extended-Term ECBs

Permanent Erosion Control Blankets

- Turf Reinforcement Mats
- HP-TRMs
- Anchor Reinforced Vegetation System

Structural BMPs

- Transition Mats
- Geoweb Cellular Confinement
- Composite Vegetated Armor System
- Flex MSE Vegetated Wall System
- Articulated Concrete Block
- Gabions
- Grout-Filled Geotextile Mats

Vegetation Establishment

- Native Seed & Turf Seed
- Fertilizers
- Organic Soil Additives
- Stratavault Soil Cells

STORMWATER MANAGEMENT

Water Quality

- Inlet Filter Boxes
- Pre-Treatment Chamber
- Nutrient Separating Baffle Boxes
- High-Flow Biofiltration Media
- Hydrodynamic Separators
- Stratavault

Water Quantity

- Modular Underground Storage Systems
- Chamber Detention Systems

Drainage

- HDPE Swale Liner
- Pipe & Fittings
- Drainage Composites
- Strip Drain

Inlet Structures

- PVC
- Drain Basins, In-Line Drains
- Landscape

Permeable Pavers

- Permeable Articulating Concrete Block
- Grass Pavers
- Gravel Pavers
- Concrete Pavers

SPECIALTY

Natural & Synthetic Coir Fiber Logs

Vegetated Reinforced Soil Slopes

Soil Anchors

Root Barrier System

AquaBlok

Muscle Wall

We are full line distributors of construction materials for all project types. Contact us for assistance with a project. From specification and development to installation and completion, we're here to help with all of your site solution needs.
